TRENTO: 12.02. – 13.02.2019

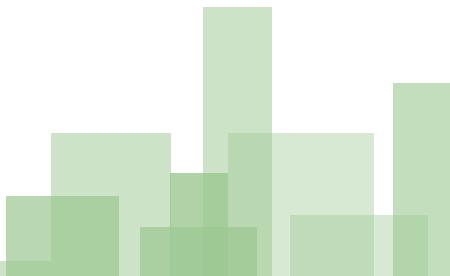

OPTIMISED ENERGY EFFICIENT DESIGN

PLATFORM FOR REFURBISHMENT

AT DISTRICT LEVEL

Are you an architect, prime designer, prime constructor or city planner working on a retrofitting project to renovate a building or whole district? Then be part of the official OptEEmAL trainings!

The OptEEmAL Platform can support you in finding YOUR best retrofit solution! Curious to know more? Our general and technical trainings will teach you how the platform works and how it can help you get the job done.

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 680676.

DAY 1: GENERAL TRAINING

Open to everyone, this training session will present the OptEEmAL context and the solution developed in the framework of the project. It will provide a clear view on how the platform works and how it can help you in the design of your retrofitting project through real application examples

DAY 2: TECHNICAL TRAINING

Dedicated to technical staff, this training session will take you all along the different OptEEmAL steps. Guided by OptEEmAL staff, you will use the platform on your own and learn how you and your projects can benefit from it.

SAVE YOUR SEAT! NUMBER OF PARTICIPANTS IS LIMITED!

TRENTO – OptEEmAL Demo Site
